Re: Safety Conditions

Dear Mr. O'Keefe,

At a recent meeting of the Rossmoor Men's Golf Club Board of Directors, we discussed what we consider as an ongoing dangerous situation. As Board President, I am writing to you to advise you on what the golfers here in Rossmoor, both residents and guests, are dealing with on a regular basis.

There is an entrance/exit driveway on to Stanley Dollar Drive from the golf cart / driving range parking area. While I'm sure that the subject of cars speeding along Rossmoor's streets is not new to you or to the GRF, these speeders create a very dangerous condition, especially while exiting this driveway. Compounding the dangers from speeding cars, it very difficult to view traffic on Stanley Dollar Drive due to illegally parked vehicles along the curbs flanking the driveway. To make matters worse, delivery trucks servicing Creekside Grill are often parked along the curb red zone making it virtually impossible to see safely around them.

The recent traffic study that was conducted in Rossmoor identified this area as problematic, however there seems to have been no apparent attempt made to slow drivers down or to provide a clear view of the street for golfers exiting the driveway. It's just a matter of time before there is a very serious accident, or worse, as a result of these conditions.

The Rossmoor Men's Golf Club is very concerned about this dangerous condition and that it continues unabated and strongly request that the GRF move to take action to remedy this matter

Sincerely,

Pat Iacullo
President
